PRICE LIST FOR 1954

YOARS HOUSE PLANT NURSERY

Bunker Hill, Indiana

LIB
REC
AUG 25 1954
U.S. Department of Agriculture

CONDITIONS OF SALE

Please Read Before Ordering

All plants and items offered for sale subject to crop failure or previous sale. It is impossible to keep so many varieties of plants always ready at one time, state at time of ordering if we may substitute a plant as good or better if we are out of variety ordered, this to be a similar variety.

Minimum order for plants is \$3.00, if less is ordered add .25c to price of plants ordered; this is not postage; otherwise we ship at a direct loss.

No C.O.D. orders accepted, money must accompany all orders. Remit by check or postal money order, if money accompanies order we are not responsible for losses.

SUPPLIES are sent prepaid in the U. S. A. ALL air parcel post, express and freight are at customer's expense.

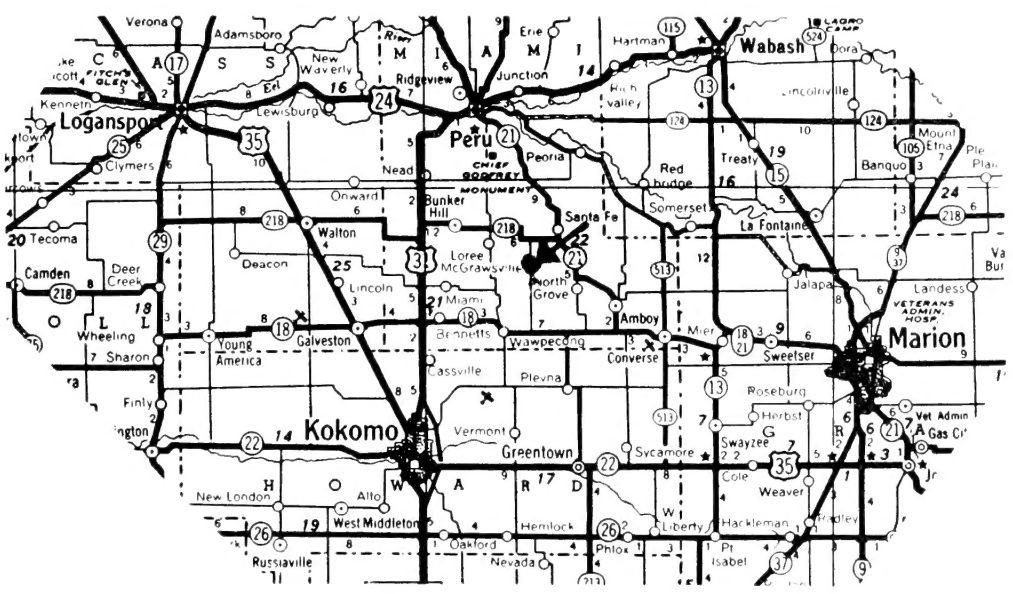

We fill orders to the best of our ability but since we have no control over purchaser's skill, climate or growing conditions, we cannot be responsible for the crop.

SHIPPING CHARGES — Add .50c to each order for shipping charges, if fast service is desired add .50c for Special Delivery or 1.00 for shipping. West of Mississippi, .75c or 1.25 Agriculture

NOTICE — When order is received, if it should be damaged enough to warrant filing claim, write us at once. We will file claim, when we receive your co-operation in filing claim we will re-fill without cost to you. Do not return plants unless instructed to do so.

VISITORS WELCOME. We are back on regular hours again, closed Sunday A.M. only. We are located (see map) 1 mile southwest of McGrawsville —NOT AT Bunker Hill, this is our mailing address only. Phone Amboy 158F32.

NOTICE: Due to conditions beyond our control we were unable to get our many plants ready to issue our list earlier this year. However, we hope you will find plants which you have been wanting, and all we can say is "we are sorry you were disappointed."

MODERN FOLIAGE PLANTS

By **ALFRED B. GRAF**

If you have wondered what your foliage plant may be, this book has the answer. Showing 127 clear pictures that will help you identify many unusual plants that make wonderful house decorations.

There is also information on how to grow, feed and water as well as a general survey of varieties in the same class65

PRONOUNCING DICTIONARY OF PLANT NAMES

Containing 3000 plant names and botanical terms, with accurate pronunciation and also brief definitions.

64 pages — 4 x 6 inches 50c

SODIUM SELENATE: We sell this product in envelopes enough to make 1 gallon of solution. This may be mixed and stored for future use as needed. We like a glass jug, plainly labeled. This treats many plants. When ready to apply lift foliage and apply to soil at edge of pot. It is best to have plants

well rooted before using. (It is best to use rubber gloves when handling this product.)

Dosage 2 inch pot, 1 teaspoonful; 3 inch pot, 2 teaspoonfuls; 4 inch pot, 1 tablespoonful. May be repeated in 2 months. Package .25c and a self-address envelope, please.

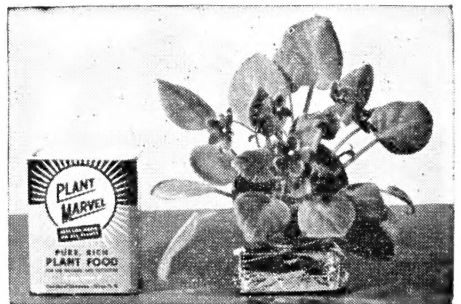

SMITH BRONX SPRAYER: Spray parts of nickel plated brass, nozzle throws a powerful broad mist spray with slow easy stroke. Also makes a fine sprayer for dampening clothes. No 8 Q Bronx (quart size) \$2.65

N.N.O.R. INSECTICIDE:

For all house plants as well as a garden spray. This is a perfectly safe house spray when used in solution. For an infestation of mite or mealy bug, prepare enough solution to completely cover the plant, add 3 or 4 teaspoonfuls of N.N.O.R. to each gallon of cool water. Stir until perfectly mixed. Place the plant in the solution to completely cover it. No harm will result if the plant is left in the solution for several hours. We have tried leaving the plant as long as 6 hours with the best results. In this way one dipping is sufficient. Dry in shade. After this, spray about every week to 10 days until all trouble has disappeared. 6 oz. \$1.40; 16 oz. \$2.75.

ROOTONE: A Hormone powder for dipping cuttings before planting. ¼ oz. pkt. .25 and stamped envelope; 2 oz. enough for 3000 cuttings \$1.25

PLANT MARVEL 8 oz. \$1.00; 1 lb. \$1.50

Feed as you water. Economical. Use it indoors or outdoors. Handy aluminum measure and directions included in every package.

FISH EMULSION FERTILIZER: Deodorized, all organic, non-burning — for all plants — Begonias and African Violets especially. Vegetables, lawns, and all outdoor uses. 1 pint \$1.65.

PLASTIC MARKERS: 100 at \$1.00 if ordered with other items or plants in the same order. (If ordered alone \$1.25)

SUPPLIES SENT PREPAID.
